Yaghmourassen Maoui

COMPUTER SCIENTIST

I am a Software Engineer with more than 2 years of experience in development . I work with various languages such as Java,C++,JavaScript, PHP, Python, Dart, SQL, and NoSQL databases.
also with modern frameworks such as React, Express.js and Spring for web , as well as Flutter and Firebase for mobile development.
Additionally, I have strong skills in network administration, including network planning,equipment configuration, IP addressing, communication protocols and securities.
I am experienced in hardware and software maintenance, problem diagnosis,solving, and troubleshooting.
I have worked in different sectors, which has strengthened my skills and made me highly adaptable.
